1. NATURE OF OPERATIONS

Acadian Mining Corporation (the “Company” or “Acadian”) is an exploration company based in Nova Scotia. The Company’s head office is on 10 Morris Drive, Suite 6, Dartmouth, Nova Scotia, Canada, B3B 1K8.

Acadian is a publicly listed company continued under the Canada Business Companies Act with limited liability under the laws of Canada. The Company’s shares trade on the Toronto Stock Exchange (“TSX”).

2. BASIS OF PRESENTATION AND GOING CONCERN

Statement of Compliance:

These condensed consolidated interim financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards (“IFRS”), and in accordance with International Accounting Standards (IAS) 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board (IASB).

The condensed consolidated interim financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the Company’s audited consolidated financial statements for the year ended December 31, 2010, and the Company’s unaudited condensed consolidated interim financial statements for the three months ended March 31, 2011, which were the Company’s first financial statements prepared in accordance with IFRS. These financial statements were approved and authorized for issue by the Audit Committee and Board of Directors of the Company on November 8, 2011.

The Company’s consolidated financial statements were prepared in accordance with accounting principles generally accepted in Canada (Canadian GAAP) until December 31, 2010. Canadian GAAP differs from IFRS in some areas and, accordingly, the significant accounting policies applied in the preparation of these condensed consolidated interim financial statements are set out below and have been consistently applied to all periods presented except in instances where IFRS either requires or permits an exemption. An explanation of how the transition from Canadian GAAP to IFRS has affected the reported consolidated financial statements of the Company is provided in note 17.

(Expressed in Canadian Dollars)
Periods Ended September 30, 2011 and 2010

Basis of Presentation:

The preparation of financial statements requires management to make judgments, estimates, and assumptions that affect the application of policies and reported amounts of assets and liabilities, and revenue and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

Judgments made by management in the application of IFRS that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the current and following fiscal years are discussed in Notes 3(k) and 3(l) for the period ended March 31, 2011.

As at September 30, 2011, the Company has cash of \$1,766,892, working capital in the amount of \$1,430,414, and shareholders' equity in the amount of \$7,596,682. Should the going concern assumption prove not to be appropriate, further adjustments will be required to the carrying amounts and/or classification of the Company's assets and liabilities and the adjustments are likely to be material. The condensed consolidated interim financial statements do not reflect any adjustments related to conditions that occurred subsequent to September 30, 2011.

3. SIGNIFICANT ACCOUNTING POLICIES

The preparation of financial data is based on accounting principles and practices consistent with those to be used in the preparation of the audited annual financial statements as at December 31, 2011. The accompanying unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's audited consolidated statements for the year ended December 31, 2010, and the Company's unaudited condensed consolidated interim financial statements for the three months ended March 31, 2011, which were the Company's first financial statements prepared in accordance with IFRS.

10. SHARE CAPITAL

During the quarter ended March 31, 2011, the Company issued 29,411 common shares at a deemed price of \$0.31 as consideration for land access rights at the Fifteen Mile Stream property. There were no further changes for the period ended September 30, 2011.

During the year ended December 31, 2010:

- (a) In November 2010, the Company consolidated its outstanding common shares on a basis of one post-consolidation share for every ten pre-consolidation shares as approved by the shareholders of the Company. The Company's common shares commenced trading on a consolidated basis on November 17, 2010. All comparative figures have been retrospectively adjusted as if this share consolidation occurred on January 1, 2010.
- (b) The Company completed a private placement of 4,923,387 common shares to Golden River Resources Corp ("Golden River"), at a price of \$0.30 per share for aggregate gross proceeds of \$1,477,016 and incurred share issue costs of \$22,736. As of September 30, 2011, Golden River owned 38,994,020 common shares, or approximately 71.95% of the issued and outstanding common shares of the Company.
- (c) The Company issued 64,706 common shares at a deemed price of \$0.60, as consideration for land access rights at the Fifteen Mile Stream property.

Share-based compensation plan

At the annual and special meeting of shareholders held on June 14, 2007, the shareholders adopted a 10% "rolling" incentive stock option plan (the "Plan"). The purpose of the plan is to attract and retain directors, officers, employees, and service providers to the Company and to motivate them to advance the interests of the Company by affording them with the opportunity to acquire an equity interest in the Company through options. Options granted under the Plan have a five-year term. Options are granted at a price no lower than the market price of the common shares at the time of the grant.

The rules of the Toronto Stock Exchange ("TSX") provide that all unallocated options issuable under a "rolling" stock option plan must be approved by shareholders every three years after institution of the stock option plan. The plan was approved at the annual and special Shareholders Meeting held June 24, 2010. Share options outstanding prior to November 17, 2010 have been retrospectively adjusted for the share consolidation on the basis of 10 for 1 as discussed above.

11. RELATED PARTY TRANSACTIONS

As part of the conditions of a private placement with Golden River in 2009, the Company in July 2009, acquired the remaining 50% of the Fifteen Mile Stream mineral claims for a cash payment of \$79,610 and a non-interest-bearing note for \$1.0 million due one year from the date of acquisition and a 1% NSR payable to Mr. Will Felderhof, former President, Director and CEO of the Company, and members of his family. The Company had the option to extend these terms for a further 12 months for a \$100,000 principal payment. On July 8, 2011, the Company issued a \$900,000 payment for full settlement on this note payable.

During the year, the Company received funds from the controlling shareholder, Golden River, in the aggregate amount of \$1,664,000. In the previous year, the Company had received funds of \$835,858 bringing the balance due to \$2,499,858. This was a non-interest-bearing loan with no set terms of repayment. This loan was repaid in full during the previous quarter.

During the previous year, the Company charged fees for common costs and salaries of \$60,000 to Royal Roads and its wholly owned subsidiary, Buchans River Ltd., including a proportionate share of rent, administrative supplies and services, as well as services provided by the Company, including those of controller, engineers, and geologists. This amount was offset against interest owing to Royal Roads on inter-company advances.

12. GUARANTEE OBLIGATION

ScoZinc Limited, a wholly owned subsidiary of the Company (“ScoZinc”) entered into lease agreements for heavy equipment with Komatsu Finance (“Komatsu”), which transferred substantially all the benefits and risks of ownership to ScoZinc. The leases bore interest at 7.2%, were for a four-year term, and had an option for ScoZinc to acquire the assets for 10% of the original cost. ScoZinc placed a 20% down payment on the leases. ScoZinc’s obligations under the leases were guaranteed by the company.

ScoZinc suspended payments under the lease obligations to Komatsu in December 2008, prior to seeking protection under the Companies’ Creditors Arrangement Act. In April 2009, ScoZinc returned the leased fleet, with a book value of \$2,821,779 to Komatsu once the slope rehabilitation project was completed.

Acadian guaranteed the equipment leases with Komatsu. The amounts owing under the agreements were fully accrued in the financial statements as current liabilities. During the 2010 year, the last of the equipment was sold and the Company agreed on the final amounts due to Komatsu. The company had commenced making monthly principal payments and settled the liability in full during May 2011, with a gain of \$1,198,796.

Management of capital risk

The Company's objective when managing capital are: (i) to ensure sufficient liquidity to support its financial obligations and execute its operating and strategic plans; (ii) to minimize the cost of capital while taking into consideration current and future industry, market and economic risks and conditions; and (iii) safeguard the Company's ability to continue as a going concern in order to pursue the development of its mining properties and to maintain flexible capital structure, which optimizes the costs of capital at an acceptable rate.

In the management of capital the Company only includes shareholders' equity, which at September 30, 2011, is \$7,596,682.

There are no externally imposed capital requirements. The Company manages the capital structure and makes adjustments to it depending on economic conditions and the rate of anticipated expenditures. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets, or adjust the amount of cash and cash equivalents and investments. At the present time, the only capital requirements are to satisfy the current liabilities. There were no changes in the Company's approach to capital management during the period.

Fair value

The carrying amount of financial assets and liabilities carried at amortized cost is a reasonable approximation of fair value.

Credit risk

The Company is exposed to credit risk with respect to its cash, accounts receivable, and loan receivable. The credit risk associated with cash is minimal as cash has been placed with a major Canadian financial institution with strong investment-grade ratings by a primary ratings agency. The Company is not exposed to significant credit risk with respect to accounts receivable, as \$185,725 of the amount due is from a government agency.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. The Company has cash at September 30, 2011, in the amount of \$1,766,892, which is sufficient to meet its short-term business requirements. At September 30, 2011, the Company had accounts payable and accrued liabilities of \$675,021 with contractual maturities of 90 days.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risk: interest rate, foreign currency, and other price risk.

(a) Interest rate risk

The company is not exposed to significant interest rate risk due to the short-term maturity of its monetary assets and liabilities.

(b) Foreign currency rate risk

The Company is not exposed to significant foreign currency risk.

(c) Other price risk

Other price risk is the risk that the fair or future cash flows of a financial instrument will fluctuate because of changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to other price risk.

16. COMMITMENT

During the quarter, the Company entered into a lease for an office premises with minimum annual lease payments of \$112,682. The lease begins on July 1, 2011, and ends on June 30, 2016, with a right to terminate after June 30, 2013, for a penalty equal to four months base rent.

The Company is committed to minimum annual lease payments of \$103,607 on its former office premises until October 2013. Effective September 1, 2010, The Company has sublet its former office premises for an amount equal to its cost.
